1916 NASCE KARHU

Ab Sportartiklar Oy crea un piccolo laboratorio nel centro di Helsinki, dove la betulla di provenienza locale viene trasformata nei primi prodotti: giavellotti, sci e dischi. Vengono sviluppate anche le scarpe da corsa chiodate.

THE START

Ab Sportartiklar Oy creates a small lab in downtown Helsinki, where the local birch gets transformed into sports tools like javelins, skis, discuses. The hobnail shoes are also developed.

1920 I "FINLANDESI VOLANTI"

Il nome della società (Ab Sportartiklar Oy) viene cambiato in Karhu che in finlandese significa Orso. Nella prima parte del '900, il movimento dell'Atletica leggera è dominato dagli atleti finlandesi, passati alla storia come i "Finlandesi Volanti", ottenendo riconoscimenti in diverse gare e con ai piedi le chiodate Karhu. Tra questi, Paavo Nurmi tornerà a casa con ben nove medaglie d'oro.

THE FLYING FINNS

The name of the company (Ab Sportartiklar Oy) gets replaced by Karhu that in Finnish means bear. During the early XX century the athletics movement is dominated by Finnish athletes that will become famous as the "flying Finns": collecting prizes match after match and always wearing their hobnail shoes produced by Karhu. One of them, Paavo Nurmi, will collect a treasure of a nice 9 gold medals..

1950 TRIONFO OLIMPICO

Karhu domina le Olimpiadi di Helsinki del 1952 vincendo 15 medaglie d'oro, tra cui quella di Emil Zatopek. La reputazione internazionale di Karhu per la sua competenza tecnica pone l'azienda come leader mondiale nella produzione di scarpe ed abbigliamento sportivo.

OLYMPIC TRIUMPH

Karhu rules the 1952 Helsinki Olympics where they win 15 gold medals, including one by the famous Emil Zatopek. The international renown acquired by Karhu through its technical expertise places the company as a world leader in the production of shoes and sports clothing.

1960 M = MESTARI

Karhu registra ufficialmente il suo famoso marchio M, lettera iniziale della parola "Mestari," che significa "campione" in finlandese. In questi anni gli atleti richiedono anche una scarpa da allenamento, così Karhu sviluppa il suo primo modello, la Trampas. Ne vengono prodotte due versioni: una con il logo M per l'allenamento, l'altra senza logo da utilizzare con l'abbigliamento casual.

M FOR MESTARI

Karhu puts under official copyright the famous M logo, where the IV stands for Mestari, a word that in Finnish means champion. In this period many athletes start to feel the need of a training shoe, so Karhu decides to develop its first training model, called the Trampas. The shoe gets released in two different versions — while the one with the M logo is designed for training, the other without logo can be worn with casual clothing.

LA STORIA DI KARHU

SINCE 1916

KARHU, che significa “orso” in finlandese, è un marchio di running leader in Europa ed ha fornito attrezzatura tecnica da running e outdoor per 100 anni.

KARHU, meaning “bear” in Finnish, is a leading running brand, and has provided technical running and outdoor gear for 100 years.

1970 AIR CUSHION

Continuando la sua tradizione, caratterizzata da innovazione ed efficienza, Karhu sviluppa e brevetta il primo sistema con “cuscino d’aria” nell’intersuola per una calzatura da running. Il modello “Champion” di Karhu, dotato di questa tecnologia, ha un grande successo nelle vendite tra i corridori di tutto il mondo, con oltre un milione di paia vendute.

AIR CUSHION

Consistent with its original inspiration and tradition, characterized by in-ovation and efficiency, Karhu develops and patents the first system im-plementing a “cushion of air” in the midsole of a running shoe. The model ‘Champion’ by Karhu, endowed with this technology, is a terrific success among the runners worldwide, with more than a billion pairs sold.

1980 FULCRUM

Mentre i suoi competitor producono scarpe con cuscini d’aria / gel, Karhu sviluppa una nuova tecnologia, frutto di un’importante collaborazione tra il brand finlandese e l’Università di Jyväskylä: il “Fulcrum”. Velocizzando la transizione tra l’appoggio e la spinta, diminuendo il rischio di infortuni e riducendo le oscillazioni verticali, il Fulcrum favorisce una migliore performance.

FULCRUM

While its competitors start to produce shoes with cushions of air or gel, Karhu develops a new technology, called the Fulcrum, resulting from a fruitful collaboration between the Finnish brand and the University of Jyväskylä. The Fulcrum enhances the performance in two ways: it reduces the gap between the foot’s impact and the subsequent push, and the vertical oscillations thus limiting the risks of injuries.

1990 ORTIX

Il percorso innovativo di Karhu negli anni Novanta porta alla nascita di Ortix, uno dei primi rilevatori della tipologia di appoggio del runner. Da qui lo sviluppo di un intersuola creata per adattarsi alle diverse esigenze dell’atleta.

ORTIX

The innovative course followed by Karhu during the Nineties results in the introduction of Ortix, one of the first systems to assess the runner’s foot posture. Hence the development of a midsole designed to adapt to the athlete’s needs.

OGGI

Consapevoli del proprio passato, ma con uno sguardo proiettato al futuro, il volere e il credo dell’azienda finlandese è così riassumibile: l’innovazione è ancora più grande se supportata dalla storia. Continua quindi lo studio e lo sviluppo di nuove tecnologie da applicare su silhouette nuove o già presenti nel background dell’azienda, sia per la linea Legend che per la linea Running.

TODAY

In keeping with its past, but looking forward to the future, the current will and vision of the Finnish company can be fleshed out in this way: innovation can spread even faster if supported by history. Hence the research and development of new technologies to be implemented on both new and already existing silhouettes must go on - and this applies both to the Legend and the Running line.

LA STORIA DI KARHU SINCE 1916

Con un'eredità autentica nel running e un profondo legame con l'outdoor, KARHU segue i principi finlandesi di semplicità nel design e di purezza nel running.

Le scarpe Karhu sono state calzate dai più grandi runners finlandesi, tra cui Paavo Nurmi, nove volte medaglia d'oro olimpica, e Olavi Suomalainen, il campione della Maratona di Boston, dando vita ai "Flying Finns", i "Finlandesi Volanti".

Le scarpe e l'abbigliamento Karhu sono venduti in tutto il mondo presso rivenditori specializzati di running e di lifestyle.

With an authentic heritage in running and a deep connection to the outdoors, KARHU follows the Finnish principles of design simplicity and running purity.

KARHU shoes have been worn on the feet of the greatest Finnish runners, including nine time Olympic gold medalist Paavo Nurmi and Boston Marathon champion Olavi Suomalainen, giving rise to the "Flying Finns".

KARHU shoes and apparel are sold globally at running and lifestyle speciality retailers.
